

Island Transportation, Inc.

Put-in-Bay, OH

Attractions for Group Packages

Celebrate our history at **Perry's Victory and International Peace Memorial** and **Visitors Center**. The third tallest monument in the United States was established in honor of the Battle of Lake Erie during the War of 1812, and the peace between Britain, Canada and the U.S. Although the 352 foot Column is closed for renovation, Rangers still provide programs and The **Visitors Center** offers a wealth of information on the history of the island, including informational videos and replicas of battleships from the war. The **Visitors Center** is a **FREE ATTRACTION** and can be added to any package.

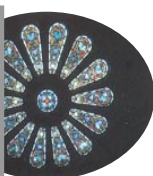

Enjoy a leisurely stroll through the beautiful **Butterfly House** at Perry's Cave where you can observe up to 40 different species and 800 butterflies from Costa Rica and Malaysia. Relive automotive history in The **Antique Car Museum** with displays of Model A & Model T's from 1915 to 1931.

Discover the deepest, darkest secret *under* the island in **Perry's Cave**. A registered Ohio National Landmark, the limestone cave was formed about 400 million years ago. It was discovered by Commodore Oliver Hazard Perry who, with his men, used the lake in the cave for their drinking water during the Battle of Lake Erie.

Take a Guided Tour of **Heineman Winery**, Put-in-Bay's oldest operating winery, and beautiful **Crystal Cave**, the largest known geode in the world! Each member of the group will receive a free glass of wine or grape juice. One lucky traveler will be awarded an Ohio Wine Gift Basket!

Behold the Romanesque splendor of **Mother Of Sorrows Catholic Church**. Dedicated in 1928, it is a smaller copy of one that exists in Lombardy, Italy. It was built for the sum of \$60,000 from limestone rock quarried from Kelleys Island. Above the entrance is the beautiful 14 petaled, stained glass "grape vine" Rose Window which was made in Germany in honor of the island agriculture.

Delight in seven acres of woods and the beautifully landscaped grounds of the **Stonehenge Estate** which brings to life a segment of island history from the 1800's. Stonehenge represents the old family grape growing farms & wineries that prospered on the island. Visitors of all ages will enjoy the antiques, photographs and island memorabilia as well as the unique outdoor items on display.

Explore one of the *island's grandest homes*. Situated on the water, directly across from Gibraltar Island, stands the majestic Italianate residence: the **Doller House**. It was home to one of Put-in-Bay's wealthiest and most influential citizens, Valentine Doller. Come hear the story of this mysterious family. Visit the **outbuilding displays** including the last remaining island ice house. Learn about 100 years of winter travel to and from the island.

Tour **Put-in-Bay Winery** and learn the history of winemaking from the seed to the sip. Enjoy a complimentary Flight of three **wine tastings** while relaxing in the wine garden or on the front lawn of the Doller Museum with its magnificent views.

Relive the past and learn about the History of the island while viewing the exhibits at the **Lake Erie Islands Historical Museum**. Exhibits featuring the Hotel Victory, the majestic steamboats and the ironclads of the past abound.

Learn about Ohio fish species and fisheries management projects at The **Aquatic Visitors Center**. Hands-on exhibits including microscopes to study the Lake Erie food chain, and live fish tanks which bring the wonder of Lake Erie indoors. Outdoors, you can watch people fish from the public docks or, with a valid license, cast a line yourself!

Observe a large variety of North American animals and water fowl, interact with live animals native to the island, and walk a nature trail filled with local plants and flowers.

The Lake Erie Islands Nature and Wildlife Museum is also a great spot for bird watching.

Discover the fateful history of the 60 Foot Tall **South Bass Island Lighthouse**. Opened in 1897, instead of using the day's typical design of a large lighthouse with a small, detached keepers dwelling, they built a large two and a half story home with an attached tower crowned with a \$1,500 fourth-order Fresnel lens.
